

November 19, 2008

Dinner Program

California Film Extruders and Converters Association

Featured Guest Speaker:

Gary Petersen

Market Development and Sustainability Chair/California Regulator,
California Integrated Waste Management Board

Join our November Program and understand the current issues and direction of the California Integrated Waste Management Board as it pertains to our industry. Gary Peterson will outline his vision of the future for plastic film and bag recycling and disposal and how the regulations that this issue is driving are likely to develop. He will suggest what he thinks our industry should be doing to protect its future. Come with your questions.

This is a program that those committed to our industry should not miss!

Gary Petersen spent the first part of his career building up one of the largest waste collection and recycling businesses in Southern California which was sold to Waste Management. Gary is currently president of Environmental Problem Solving Enterprises which specializes in advancing environment-friendly products and services, including the development of cleaner fuels, emerging green technologies, and sustainable design and development. In 2005, Gary was appointed by Governor Arnold Schwarzenegger as the environmental member of the California Integrated Waste Management Board. **The California Integrated Waste Management Board** is the State agency designated to oversee, manage, and track California's 92 million tons of waste generated each year. The Board promotes a sustainable environment where these resources are not wasted but can be reused or recycled in partnership with all California.
