

## Products You Need to Succeed – From a Global Polyolefins Leader

As an innovator of polyethylene and polypropylene resins selected by customers for today's demanding applications, LyondellBasell is a proud sponsor of CFECA's 2011 Resin Outlook meeting.

We offer industry-defining products, dedication to customer service, technical expertise and a legacy of manufacturing know-how. Used in a variety of applications including blown film, injection and blow molding, extrusion coating, profile extrusion, rotational molding, pipe and wire and cable, LyondellBasell products can help customers to:

- Achieve raw material savings
- Expand processing windows
- Use new and innovative conversion processes
- Eliminate costly manufacturing steps
- Deliver benefits throughout their value chains

Find out how LyondellBasell can help you achieve success. Visit [www.lyondellbasell.com](http://www.lyondellbasell.com) for more information.
