

UPCOMING MARCH 22, 2011 PROGRAM: SO CAL MEETING

Industry Trends and New Technologies in Film Extrusion and Printing for Flexible Packaging

Featured Guest Speaker:

Hans A. Deamer

President

Windmoeller & Hoelscher Corporation

PROGRAM HIGHLIGHTS

- Overall market trends for flexible packaging including sustainability, woven PP sacks vs. paper sacks
 - New developments in film making to improve film properties and output, including water-cooled blown film extrusion, MDO (machine direction orientation), high output air rings, and nanolayer cast film applications
 - New developments in printing on film to reduce make-ready and change-over times and increase speeds, including automatic color matching, automatic register and automatic impression setting, sleeve and roll handling concepts, as well as robotic press innovation and extended gamut inks
- CMAI is the premier provider of Market and Business Advisory Services offering a unique combination of consulting analytics and expertise for plastics, the global chemical, fibers and chlor-alkali industries. CMAI has provided expert advisory services to a broad base of companies across multiple value chains and geographies since 1979. Clients to CMAI services include plastic converters, chemical and oil companies, technology & EPC companies, banking and financial institutions, textile & apparel manufacturers, brand-owners, grocers/retailers, government agencies and trading companies.

Hans A. Deamer is President at Windmoeller & Hoelscher Corporation, a major worldwide supplier of flexographic and gravure printing presses, blown and cast film extrusion lines and machines for producing bags and sacks out of paper or plastics. With W&H for 32 years, he started as Sales Manager for Printing Presses and then became Senior Vice President in 1990. In 2001, he took over as President. Educated in the UK, with a degree in Mechanical Engineering, he has more than 30 years experience in machinery for printing, laminating and slitting of materials for flexible packaging and is a frequent speaker at industry meetings and conferences, including those arranged by the Flexographic Technical Association (FTA), Gravure Association of America (GAA), Converting Machinery Manufacturing Association (CMM) and Packaging and Label Gravure Association (PLGA). He is also on the Board of the Flexible Packaging Association (FPA).

WHEN

Tuesday, March 22, 2011

5:30pm Registration & Networking

6:30pm Program & Dinner

WHERE

Doubletree Hotel

13111 Sycamore Drive, Norwalk, CA 90650

Tel: 562-863-5555
